- Delivered customer support and resolved operational issues
- Strengthened communication and organizational skills

Customer Support Assistant

ICICI Bank , Singapur — Singapur

- Managed customer inquiries and technical support requests
- Coordinated with internal teams for issue resolution

PROJECTS

DATA ANALYTICS PROJECTS

Python EDA Analysis

https://github.com/Tarakadambi/Python_Festival

Festival Sales Analysis:

- Cleaned and analyzed sales datasets using Python
- Identified customer purchasing behavior and sales trends
- Created visualizations to support business insights

https://github.com/Tarakadambi/Python_StudentAnalysis

Student Performance Analysis:

- Analyzed student datasets to identify academic performance patterns
- Performed data cleaning and exploratory data analysis
- Generated insights using Python visualizations

https://github.com/Tarakadambi/python_music_data

Music Dataset Analysis

- Explored music datasets to identify popularity and listener trends
- Performed data preprocessing and exploratory analysis
- Created visual reports for trend analysis

https://github.com/Tarakadambi/Python_wine-Datasets

Wine Dataset Analysis

- Conducted exploratory analysis on wine datasets
- Identified patterns and relationships within the data
- Used Python libraries for visualization and reporting

Power BI

<https://github.com/Tarakadambi/PowerBI>

Bank Churn Dashboard

- Built interactive dashboards for customer churn analysis
- Visualized KPIs and customer retention metrics
- Supported business decisions through reporting insights

<https://github.com/Tarakadambi/Financial-Power-BI>

Financial KPI Dashboard

- Created financial KPI dashboards for reporting and analysis
- Visualized revenue and performance metrics
- Improved reporting clarity through interactive visualizations
